

Senior Credit Analyst – Special Risk Team

Location:	London (Canary Wharf)
Job Hours:	35hrs
Company:	Euler Hermes UK
Salary:	Competitive remuneration package including flexi-time scheme, bonus, non contributory pension and additional benefits

The Experts in Credit Management

Euler Hermes UK has been in business since 1918 and is part of the global leader in credit insurance Euler Hermes with presence in over 50 countries and 57,000 clients worldwide. Euler Hermes UK is part of the Euler Hermes Group and the Allianz Group.

We are a leading company in the provision of credit management solutions, a specialised field but one that is critical for the well-being of UK businesses. Credit Insurance secures trade by providing cover against bad debt should a customer become insolvent or default on payment. Our other services include credit opinions and UK and international commercial debt collections.

Euler Hermes Corporate Structure

Our head office is located in Canary Wharf, London.

We have opportunities at several levels in all areas of the company and are interested in hearing from people with risk analysis, underwriting and sales skills and especially those with credit insurance experience.

Summary of Role

An exciting opportunity has arisen to join our Special Risk Team based in our Canary Wharf HQ. If you enjoy working in a role which requires extensive and complex financial analysis and high profile portfolio management then this is the role for you.

You will be a self sufficient individual with the ability to proactively work on your own initiative including management of your diary and movements to ensure that you are able to provide extensive review and analysis for a portfolio of high risk UK and Ireland clients.

Your key objectives will include, but will not be restricted to, the activities

required to monitor the mitigation and or prevention of claims and losses.

In order to work in this prestigious arena you will need to be an expert in financial analysis along with having extensive business acumen, gravitas and integrity.

You will need proven ability in the management of conflicts as this will aid you greatly when identifying potential problems and opportunities to increase business via qualitative and quantitative analysis.

Responsibilities:

To perform at this high level, you will be experienced in both Plc and private company business & financial analysis as your responsibilities will include; producing in-depth reports and analysis; proactively managing a portfolio of risks and presenting results to board-level stakeholders.

If you feel that you meet the criteria for this role and can see the opportunity to shine within it, why not take the next career step and contact us to discuss this further.

Requirements & Key Skills:

You will ideally have;

- A degree level education or equivalent.
- Banking/finance/insurance experience with a relevant professional qualification.
- Detailed experience performing corporate credit analysis of listed and non-listed companies in a variety of industries with exposures as low as £3M and as high as £1.5B.
- Advanced experience with word, excel and other types of CRM
- Some knowledge of loan workout beneficial
- Experience gathering financial data, spreading the financial data, discussing the information with company FD's, CFO's, etc., analyzing the data and writing critical reports
- Ability to argue cases or points in a committee environment
- Credit training
- Critical thinking and analysis
- Experience of holding complex high profile interrogative meetings with influential heads of

business.

- Strong presentation skills and experience of presenting complex information.
